

Engineering Materials Co-ordinator, Cramlington, UK

What are we looking for?

Do you have a desire to work for a renewable energy provider? Do you have engineering experience in the power generation business or are you looking for a change in direction but have the transferrable skills to make it in the renewable power generation industry? Are you ready to help us create 'Ever Better Energy'?

What will you be doing?

Reporting to the Maintenance Manager the Engineering Materials Co-ordinators main role is to ensure that the sites raw materials and engineering components are managed and to provide an effective service to the sites engineering and operational departments. A core component of the role will also be to ensure stock held is at accurate levels, is relevant and available for use.

Summary of key responsibilities:

- Taking responsibility for the management and provision of an engineering stores facility and ownership of other site raw materials such as chemicals, oils etc.
- Identifying purchasing opportunities with key suppliers.
- Manage the store's CMMS inventory system to identify stock holding and value, and carry out audits.
- Raising and controlling purchase orders whilst keeping purchase information in readiness for processing to the Finance Team.
- Processing job cards to ensure that accurate stock levels are maintained.
- Management of critical spares to identify high, medium and low moves and management of obsolescent stock.
- Ensuring all engineering spend is immediately recorded and monitored.
- Arrange couriers/return deliveries when required.
- To engage with suppliers at all levels, maintaining close relationships ensuring a driven response to part requests and that essential spares are delivered on time.
- Engage with all the engineering/planning team to locate parts and issue accurately for planned work.
- Support the Plant with any Safety related projects or initiatives.

Qualifications & Knowledge to succeed:

- EfW, Coal, CCGT Power Plant or Thermal Power Plant Operational & Maintenance experience is an advantage.
- HV/LV Experience is an advantage.
- Previous experience within an engineering background would be advantageous.
- Knowledge of UK HSE legislation advantageous.
- Strong problem solving skills
- Strong organisational skills
- Good data processing and systems skills.
- Good PC/System knowledge and skills (Excel is paramount)
- Full UK driving licence
