

Student Assistant in Mechanical Engineering

Are you a Mechanical Engineering student looking for a part-time position where you can gain practical experience while supporting engineering and production activities? As a Student Assistant at BWSC, you will work alongside experienced engineers and technicians, contributing to real engineering tasks and supporting daily operations in a professional environment.

The position is part-time with an expected workload of approximately 8–12 hours per week, depending on your availability and ongoing tasks.

BWSC – Ever better energy!

Join us in our mission in building a world of sustainable energy and make a meaningful impact on the world of power generation and energy conversion.

BWSC is a leading player in the power generation industry, specializing in the service, operations, and maintenance of power plants. We are at the forefront of sustainable energy solutions, working closely with Original Equipment Manufacturers (OEMs) to develop and construct cutting-edge power-to-x facilities. Our commitment to excellence, innovation, and environmental stewardship sets us apart in the industry.

The position

As a Student Assistant, you will support mechanical engineering and production activities through administrative, technical and operational tasks. You will work closely with senior engineers and technicians across design, manufacturing, maintenance and quality functions. The role provides valuable insight into how mechanical engineering solutions are developed, produced and maintained in an industrial environment.

The role may include 1–3 travel days per month, which will always be planned with consideration for your exam periods and academic commitments. We offer a high degree of flexibility in relation to exams and study obligations.

Key responsibilities

- Assist in design and drafting using CAD software (e.g. AutoCAD, SolidWorks)
- Support manufacturing and production activities
- Assist with testing, inspection and quality control of mechanical components
- Prepare and update technical reports, drawings and documentation
- Assist in maintenance and troubleshooting of machines and equipment
- Follow safety rules and standard operating procedures
- Coordinate with senior engineers and technicians on site or in workshops

Qualifications

We foresee that the ideal candidate is motivated to learn, takes initiative and enjoys working both independently and as part of a team in a technical environment.

- Currently pursuing a Diploma or Degree in Mechanical Engineering
- Basic knowledge of mechanical systems, materials and manufacturing processes
- Familiarity with CAD software is an advantage
- Willingness to learn and adapt in a professional engineering environment
- Good communication and teamwork skills
- Proficient in English (spoken and written)

What do we offer?

By joining BWSC you get the chance to impact and contribute to meaningful projects that promote sustainability and environmental responsibility. We offer an exciting position in a dynamic, skilled, and collaborative work environment. Further we promote opportunities for professional development and growth.

We have a good canteen, fitness facilities, and an active Staff Club contributing with various types of events and activities. Our HQ is placed in Allerød, near the train station and only a 30 min ride from centre of Copenhagen.

We look forward to hearing from you

We will review applications and proceed with relevant candidates on an ongoing basis, so please submit your application as soon as possible, and **no later than February 11, 2026**.

We look forward to receiving your application. If you have any questions regarding the position, feel free to contact **Henrik Andersen** at hna@bwsc.dk.

BWSC wants to promote equality and diversity. We encourage all qualified candidates to apply - regardless of ethnic background, gender, sexual orientation, disability, religion, or age. We

therefore recommend not stating age etc. on application documents.

Learn more about us at our website, www.bwsc.com, where you can read about our projects, strategy, and vision at BWSC.

BWSC does not receive, or handle applications sent via email in compliance with GDPR regulations.

About BWSC

Burmeister & Wain Scandinavian Contractor A/S (BWSC) is a global power plant Operation & Maintenance and technical service provider with engineering expertise, enabling power plant owners to deliver cleaner and affordable energy. We are experts in servicing, upgrading, operating, and maintaining energy systems for diesel, natural gas, and renewable baseload power plants. We help our customers increase reliability and availability of energy production, improve efficiency and performance of their power plant, design and integrate future-proof technologies, and secure lower cost of maintenance. At BWSC, we work with customers in Europe and beyond to tackle energy storage, carbon capture, Power-to-X and related energy transition challenges.

Our people are at the core of everything we do and key to a positive relationship with our customers. We invest in our people and their wellbeing, to ensure continued success and growth of the company.
