

Associate Project Director

Are you a skilled project professional with a passion for renewable energy? Do you thrive in a dynamic environment where you can contribute to complex and impactful projects? Join BWSC as Associate Project Director and play a key role in shaping the future of power generation and energy conversion!

BWSC – Ever better energy!

Join us in our mission in building a world of sustainable energy and make a meaningful impact on the world of power generation and energy conversion.

BWSC is a leading player in the power generation industry, specializing in the service, operations, and maintenance of power plants. We are at the forefront of sustainable energy solutions, working closely with Original Equipment Manufacturers (OEMs) to develop and construct cutting-edge power-to-x facilities. Our commitment to excellence, innovation, and environmental stewardship sets us apart in the industry.

What will you do?

As Associate Project Director, you will play a central role in supporting and leading large and complex projects within BWSC. You will work closely with the Project Director and project teams to ensure that projects are delivered on time, within budget, and to the highest quality standards.

Your responsibilities will include:

- Overseeing day-to-day project operations and ensuring that timelines, budgets, and resource allocation are adhered to.
- Maintaining detailed records of project activities, decisions, and outcomes.
- Identifying potential risks and issues and developing mitigation strategies.
- Ensuring that project activities comply with quality standards and regulatory requirements.
- Assisting with financial planning, budget monitoring, and proper use of funds.
- Assisting in the development and implementation of project strategies and goals.
- Serving as a point of contact for internal and external stakeholders and ensuring effective communication.
- Supporting Project Director(s)

The position will require 20-35 days of travelling yearly but fluctuates year by year and is subject to requirements of the projects and activities.

What do you bring to the field?

We are looking for a motivated and experienced project professional with a passion for renewable energy and a desire to make a difference. You have a solid foundation in project management, a collaborative spirit, and a desire to grow your skills in a dynamic environment.

Ideally, you have/ are:

- Experience in project management, including planning, execution, and monitoring.
- An analytical and solution-oriented approach.
- A desire to learn and develop your project and management skills.
- A bachelor's degree in Engineering, Marine Engineering, or a related field.
- Fluency in English, both written and spoken, Danish is an advantage but not a requirement

We value candidates who have/are:

- A collaborative approach and enjoy working in teams
- Organized and detail-oriented
- Flexible and adaptable to changing priorities
- Committed to quality and continuous improvement

What do we offer?

By joining BWSC you get the chance to impact and contribute to meaningful projects that promote sustainability and environmental responsibility. We offer an exciting position in a dynamic, skilled, and collaborative work environment. Further we promote opportunities for professional development and growth.

We have a good canteen, fitness facilities, and an active Staff Club contributing with various types of events and activities. Our HQ is placed in Allerød, near the train station and only a 30 min ride

from centre of Copenhagen.

We look forward to hearing from you

We will review applications and proceed with relevant candidates on an ongoing basis, so please make sure to apply as soon as possible – and no later than 28 of June 2025. We look forward to receiving your application, if you have any questions regarding the position, please do not hesitate to contact Jens Rosendahl at jenr@bwsc.dk

This position is based out of Denmark, and we do not offer relocation. To uphold the position, you should be able travel frictionless globally.

BWSC wants to promote equality and diversity. We encourage all qualified candidates to apply - regardless of ethnic background, gender, sexual orientation, disability, religion, or age. We therefore recommend not stating age etc. on application documents.

Get to know us even better at our website, www.bwsc.com, where you can learn more about our projects, our strategy and what we want to achieve at BWSC.

About BWSC

Burmeister & Wain Scandinavian Contractor A/S (BWSC) is a global power plant Operation & Maintenance and technical service provider with engineering expertise, enabling power plant owners to deliver cleaner and affordable energy. We are experts in servicing, upgrading, operating, and maintaining energy systems for diesel, natural gas, and renewable baseload power plants. We help our customers increase reliability and availability of energy production, improve efficiency and performance of their power plant, design and integrate future-proof technologies, and secure lower cost of maintenance. At BWSC, we work with customers in Europe and beyond to tackle energy storage, carbon capture, Power-to-X and related energy transition challenges.

Our people are at the core of everything we do and key to a positive relationship with our customers. We invest in our people and their wellbeing, to ensure continued success and growth of the company.
