

Fuel Handling and Operations Support Technician, Sleaford, UK

Does sustainable energy trigger your interest? Do you have a solids/fuel handling background? And are you a Finisher able to deliver results on schedule? Would you like to join a dynamic engineering firm with an entrepreneurial, fast paced, value-driven culture? Then you could be BWSC's next Fuel Handling and Operations Support Technician at Sleaford, UK.

What are we aiming for?

We are looking for a Fuel Handling and Operations Support Technician who can undertake the overall fuel handling duties from fuel reception to by-product removal in a safe and efficient manner.

What will you be doing?

Reporting to the Fuel Team Supervisor, ensure safe fuel handling duties from fuel reception to ash handling along with general site operational support, In doing so also fostering an ethos of maximum plant reliability, flexibility, availability. This is to be achieved whilst attaining high standards of Quality, Health Safety & Environmental performance. Furthermore, your tasks will be to:

- Operate the fuel handling and by-product plants with respect to safety, environmental and operational limits at all times, whilst maximising availability, reliability and efficiency.
- To carry out day to day fuel, Ash, and General site delivery offloading duties
- Ensure day to day compliance with all aspects of the offloading systems including, daily routine lifting equipment inspections & on-site traffic management.
- Assist the operations team to ensure that plant is in a fit and correct state for return to service following maintenance, outage or other prolonged shutdown
- Undertake continuing personal development to enhance knowledge & skills relevant to the role. Participate in department training and development. This will include completing a number of set competency targets/tasks.
- Participate in company/site HSEQ initiatives including the HSEQ forum activities.
- Supporting other UK business if the need arises.
- To change working patterns where necessary in order to meet the needs of the business.
- Able to safely operate a Counterbalance Forklift Truck, front Load mechanical shovel and grab crane. (training will be offered to suitable candidates)
- The role requires some physical labour, including the need to climb vertical ladders and multiple levels of stairs – The successful candidate should be of a level of fitness to meet these requirements.
- Some tasks that the candidate may reasonably be asked to carry out may be at height, This includes working from a Cherry picker (MEWP)
- Operate the site weighbridge as required to accurately record all deliveries to site.
- Ensure all fuel handling departmental defects/works/routines are recorded within the sites CMMS (Computerised Maintenance Management system).
- Perform housekeeping on fuel storage and handling facilities, including external site areas.
- Adhere to health, safety and environmental management policies and assist in the creation/development of all site operations procedures.

Qualifications to succeed

The ideal candidate will ideally have an ONC/C&G/NVQ Level 3 qualification in a craft skill with a good level of practical Operational/Maintenance experience being preferable but not essential. Further a good understanding of all HSE aspects is a fundamental requirement, with IOSH working Safely a preferred requirement.

If we could choose from the top of the shelf, we would expect you to:

- Knowledge and experience of biomass or thermal power plant process and exposure to a heavy process plant maintenance activity is preferred.

- Previous experience and qualifications in the use of Counterbalance FLT/MEWP's/Telehandler and Overhead Crane is preferable, although training, as required, will be provided.
- Experience in the use of traffic management and weighbridge facilities would be desirable.
- Good verbal/written communication skills in English.
- Good interpersonal skills, self-motivated, flexible and committed attitude.
- Full UK Driving License

What do we offer?

BWSC gives you access to a great network of possibilities. We build inspiring careers locally and internationally.

We offer a key position with great colleagues and the possibility to bring your skills into play and growth on a personal level. Further, we offer a competitive salary package matching your qualifications.

Some occasional and ad-hoc national travel may be required.

Ready for a challenge?

Please do not hesitate to contact Operations Manager, Paul Newby at panew@bwsc.dk to learn more about this position.

The application deadline is **21st of November 2025**. We will conduct interviews on an ongoing basis, so please send your application as soon as possible.
