

Technical Project Manager for the Energy Industry

Do you have a technical education, are you energetic, service-minded, and have good interpersonal skills? Then you might be the right candidate for the position of Project Manager in our Service Project Management Department.

BWSC – Ever better energy!

Join us in our mission in building a world of sustainable energy and make a meaningful impact on the world of power generation and energy conversion.

BWSC is a leading player in the power generation industry, specializing in the service, operations, and maintenance of power plants. We are at the forefront of sustainable energy solutions, working closely with Original Equipment Manufacturers (OEMs) to develop and construct cutting-edge power-to-x facilities. Our commitment to excellence, innovation, and environmental stewardship sets us apart in the industry.

The position

Due to significant growth in service sales, we are looking for a competent and responsible Project Manager with solid business knowledge and broad technical expertise.

You will work primarily with mechanical and/or electrical upgrade projects on power plants based on both biomass and conventional technology.

Tasks can include service and repair of diesel and boiler plants, replacement of pressurized components, fuel conversion projects, and upgrade/refurbishment of auxiliary equipment such as burners, mills, conveyors, and slag equipment.

It will be your job to ensure that service projects are executed efficiently, so that customers experience us as a professional and reliable partner who always meets deadlines, budgets, and agreements. You will collaborate with our Field Service and Technical Departments departments to ensure the right resources are available, follow up on finances, and manage planning for optimal resource utilization. More specifically, you will:

- Create and maintain strong relationships with customers and partners
- Complete assigned service projects within deadlines and budget
- Coordinate administrative, technical, and financial tasks
- Provide technical input in tendering processes

Qualifications

You have a technical education, e.g., Mechanical Engineer or Chief Engineer, and at least 5 years of relevant work experience in the energy industry. Experience in operating 2- and 4-stroke diesel plants is an advantage. Experience in welding processes and methods according to ISO3834-2 (WPS/WPQR) would also be an advantage.

Additionally, the right candidate possesses the following qualifications:

- Ability to coordinate and ensure that work is executed effectively
- Strong cultural awareness and adaptability in international settings
- Ability to collaborate across teams and support colleagues
- Strong customer understanding, excellent interpersonal skills, and networking skills
- Adaptability to sudden changes
- Proactive in seeking knowledge and handling direct customer contact
- Strong focus on quality assurance before final delivery to customer
- Fluency in English

The job is based at our headquarters in Allerød, Denmark, but travel activity to our sites around the world must be expected.

What do we offer?

By joining BWSC you get the chance to impact and contribute to meaningful projects that promote sustainability and environmental responsibility. We offer an exciting position in a dynamic, skilled, and collaborative work environment. Further we promote opportunities for professional development and growth.

We have a good canteen, fitness facilities, and an active Staff Club contributing with various types of events and activities. Our HQ is placed in Allerød, near the train station and only a 30 min ride from centre of Copenhagen.

We look forward to hearing from you

We will review applications and proceed with relevant candidates on an ongoing basis, so please make sure to apply as soon as possible – and no later than 13 April 2025. We look forward to receiving your application, if you have any questions regarding the position, please do not hesitate

to contact Anders Nybroe at anny@bwsc.dk

BWSC wants to promote equality and diversity. We encourage all qualified candidates to apply - regardless of ethnic background, gender, sexual orientation, disability, religion, or age. We therefore recommend not stating age etc. on application documents.

Get to know us even better at our website, www.bwsc.com, where you can learn more about our projects, our strategy and what we want to achieve at BWSC.

BWSC no longer receive, or handle applications received via email due to the directives of the GDPR. For your application to be processed, you must submit your application via our online recruitment system.

About BWSC

Burmeister & Wain Scandinavian Contractor A/S (BWSC) is a global power plant Operation & Maintenance and technical service provider with engineering expertise, enabling power plant owners to deliver cleaner and affordable energy. We are experts in servicing, upgrading, operating, and maintaining energy systems for diesel, natural gas, and renewable baseload power plants. We help our customers increase reliability and availability of energy production, improve efficiency and performance of their power plant, design and integrate future-proof technologies, and secure lower cost of maintenance. At BWSC, we work with customers in Europe and beyond to tackle energy storage, carbon capture, Power-to-X and related energy transition challenges.

Our people are at the core of everything we do and key to a positive relationship with our customers. We invest in our people and their wellbeing, to ensure continued success and growth of the company.
